ABOUT ME

I am a highly motivated IT student from Hungary, now doing my studies at university. I definitely have some recent projects and now working on some new too. You can see more details about them on my portfolio! The field, where I'm the most comfortable is web development using a framework, like React or Angular with Typescript, and I am always striving to keep my knowledge up to date.

REFERENCE AND EXPREIENCE

Task Evaulator & Chrome Extension

Project

- Real users
- Full stack project with containerization.
- Developed frontend using Angular, Vue and Laravel
- Designed interface based on Figma designs using TailwindCSS and smooth animations
